ABOUT GREENOVATION 2026

International Green Building Technology Expo will provide an excellent opportunity for Indian & global players to showcase the very best of technologies in the areas of sustainable buildings developments. Exhibitors will display their innovations- green building products technologies, equipments & machineries to prospective collaborators and policy makers and will be able to connect and network with fellow entrepreneurs. The event will attract overseas exhibitors from America, Germany, Belgium, France, Japan, Korea, Canada, and Sweden, Netherlands and other countries.

GREENOVATION 2026 is a platform to promote technology and build an environment-friendly & resource-saving society and showcase sustainable ideas, technology, equipments and designs to entrepreneurs, innovators, Architects, Builders & Developers, Government representatives, Consultants, Contractors, Lighting Consultants, Town Planners, Corporate, Research and Academic institutions and Multilateral Development institutions at this single meeting point.

Green and smart buildings will reduce pollution and degradation of environment through efficient usage of energy, water and other resources supporting healthy living and improving productivity. The Government of India is actively introducing programmes which promote green and smart technology through their Smart City Mission to improve the quality of urban living. The Government is encouraging industry, architects and service providers to adopt a green, smart and energy efficient technology.

WHY EXHIBIT?

- Increase your brand's recognition.
- Position your organisation as an important player in the green technology space.
- Present your technology to a distinguished international audience.
- Enter new markets and connect with national and international companies.
- Develop new business relationships and gather business leads.

ORGANIZERS

Indian Exhibition Services (IES) is a leading exhibition organizing company in India, actively involved for several years in creating strong business platforms through **B2B exhibitions, seminars, conferences, buyer-seller meetings, and other trade promotion activities.**

We have been continuously engaged in the development of **MSMEs**, providing effective business promotion platforms for small-scale industries to showcase and promote their products. Our core objective is to **create a strong bridge between buyers and suppliers within the MSME ecosystem**, enabling sustainable business growth and long-term partnerships.

The **core strength of Indian Exhibition Services** lies in acting as a reliable connector between buyers and sellers. Every event organized by IES has been a **resounding success**, aligned with our commitment to maintaining **international standards** in delivering high-quality, professionally managed, and value-added exhibitions and events.

In addition, IES actively works with **corporates and large industries**, offering powerful trade exhibition platforms to promote their products, strengthen brand value, and accelerate business growth through well-curated industry-focused events.

Green Society of India (GSI) is a registered and non-profit organization under the societies registration act XXI of 1860 with its head office in New Delhi (India) and working for the environment protection with the aim to create environmental awareness and involved in research, investigative, educational work in the field of pollution, forest, wildlife, land & water use and various aspects of the environment.
